## Mohamed Ntumba

The Albury/Wodonga Commercial Club Bandits Coaching Staff and Board would like to announce the re-signing of fan favourite Mohamed Ntumba for the 2014 SEABL Season.

It is with great pleasure that we announce this given the unfortunate end to Momo's 2013 season due to his knee injury and the uncertainty that comes with these sorts of injuries.

Momo has now recovered fully and is currently playing with AS Hammamet in the Tunisian National League. Momo will be re-joining the team in February in preparation for the season and is really looking forward to completing some unfinished business from a team and individual perspective.

Head Coach Brad Chalmers said "I am delighted that Momo has overcome his injury, the guy was very diligent with his rehab before and after he left us and we are excited that he has decided to return to the club and it shows a wonderful commitment to what we are all about as a group and acknowledges the fantastic relationship between him and the organisation. Momo's work ethic, play, physicality and mental toughness are first rate and we did miss his presence in 2013 and we look forward to him again leading from the front in 2014".

Momo's play on the court, his fantastic work in the basketball community running camps and clinics, along with his personable and very humble nature make him an endearing and much loved player that our club, fans and community have embraced to the fullest, and no doubt all will be glad to see him back in Bandits colours this season.
